## **FS-Elliott Receives ISO 'Class 0' Certification, Verifying 100% Oil-Free Air**

**Export, PA, January, 2012 – FS-Elliott's oil-free air compressors have been certified 'Class 0' with respect to oil content, oil vapor and organic solvents, conforming to the ISO 8573-1 2010 standard and verifying that FS-Elliott has always delivered 100% oil-free air.**

FS-Elliott has been the industry leader for the past 50 years in developing air compressors certified to deliver 100% oil-free air making them ideal for industries such as food and beverage, pharmaceuticals, electronics, automotive, and several others requiring pure air. Prior to obtaining Class 0 certification, FS-Elliott performed independent testing to provide assurance to users that FS-Elliott air compressors have always been oil-free and receipt of the formal certification further verifies this point.

TÜV Rheinland, a leading, global independent test provider, issued FS-Elliott's certification for the new ISO 8573-1 Class 0 standard. TÜV Rheinland, as an independent, neutral third party, has a history dating back 140 years and employs a global network of approved labs and testing centers.

FS-Elliott recognizes the importance of providing the right centrifugal compressor for every customer, built to the highest quality standards. By committing to these goals for every customer, every time, FS-Elliott has become the leader in centrifugal compressor manufacturing. Our compressors are recognized around the world for their efficient performance and durability in demanding industrial environments as well as in applications requiring precise, custom-engineered solutions, all while ensuring 100% oil-free air, every time.
